1. Executive Summary

AsiaBaseMetals Inc. ("the Company") is a growth company focused on the exploration and development of zinc and base metals. The Company has projects in British Columbia and Ontario, Canada.

The Gnome zinc project has land claims that encompass 5,429 hectares and are located strategically in the heart of an area home to some of Canada's important zinc deposits and the focus of much past exploration. The Gnome project lies 70 km SE from the Cirque Zn-Pb-Ag deposit and 46 km SE along trend from the Akie Zn-Pb-Ag deposit, all of which are in the Kechika trough, a geological belt northeast of Williston Lake containing these and other sediment-hosted Zn-Pb-Ag prospects along trend. These deposits and prospects were discovered in the heyday of northern British Columbia Zn-Pb-Ag exploration during the late 1970's and early 1980's.

Work on the Gnome project to date includes mapping and sampling during the 1970's and recent work by the Company. The Company conducted an exploration program during fiscal 2012 and completed the program early fiscal 2013. The Company prepared an updated geological report and is evaluating and assessing the data obtained from the program to determine the next course of action.

On April 30, 2015, the Company entered into an agreement with Great Lakes Resources Ltd. ("Great Lakes"), as approved by the TSX Venture Exchange ("TSX.V") on May 12, 2015, to purchase an undivided 100% right, title and interest in and to the Jean Iron Ore Property ("Jean Property") from Great Lakes for 100,000 common shares issued on May 12, 2015 (on a post consolidation basis – see Note 2 (b)) and to concurrently terminate the Option Agreement the parties had entered into on August 25, 2014 under which Great Lakes had granted the Company the option to acquire the Property. The original acquisition pursuant to the August 25, 2014 agreement was approved by the TSX.V on November 12, 2014. Consideration for the acquisition under the August 25, 2014 agreement was 50,000 common shares (issued on November 13, 2014) and an exploration work permit of \$160,000 (being \$10,000 on or before March 31, 2015, \$50,000 on or before September 30, 2015 and \$100,000 on or before September 30, 2016 for a total of \$160,000). The Jean project is an iron ore exploration property located in the Thunder Bay Mining District of Northwestern Ontario, Canada. It is comprised of 17 claims totaling 1,824 hectares and is located approximately 65 kilometres to the southwest of Thunder Bay, approximately 2 kilometres north of the Whitefish Lake on Highway 588.

In addition to advancing the Gnome and the Jean projects, the Company is focused on identifying, acquiring and developing other business opportunities.

Having completed a stock consolidation on a 1 new for 2 old basis on May 12, 2015, the Company on July 31, 2015, announced a non-brokered private placement for gross proceeds of up to \$250,000 through the sale of 3,100,000 common shares at a price of \$0.05 per share and up to 1,900,000 common flow-through shares at a price of \$0.05 per share. All securities to be issued pursuant to the private placement were to be issued subject to a four month hold period from the date of issue. The private placement was subject to acceptance by the TSX Venture Exchange. On August 14, 2015, the Company announced a further consolidation of a 1 new for 2 old shares basis as amendments to this private placement. The private placement will now consist of up to 3,100,000 common units and up to 1,900,000 common flow-through units of the Company on a post-consolidation basis for gross proceeds of \$250,000.

Each common unit will consist of one post-consolidation common share of the Company and one transferable share purchase warrant of the Company. Each warrant will entitle the holder to acquire one additional common share of the Company for a period of two years at an exercise price of \$0.05 per warrant share for the first year and \$0.10 for the second year.

2. Second Quarter 2015 Highlights

During the nine months ended June 30, 2015, the Company received the acceptance of the Jean project purchase agreement from the TSX Venture Exchange (“TSX-V”) and 100,000 common shares (post-consolidation) were issued to Great Lakes.

For the nine months ended June 30, 2015 (“Q3-2015”), the Company incurred a comprehensive loss of \$124,843 and had an accumulated deficit of \$1,926,287. The Company’s ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

The Company’s cash position at June 30, 2015 was \$29,197.

3. Results of Operations

The following is a summary of the total project costs to date for the Gnome zinc project:

	Acquisition Costs	Project Costs	Total
Balance as of September 30, 2014	29,276	381,927	411,203
Nine months ended June 30, 2015	-	944	629
Balance as of June 30, 2015	29,276	382,871	412,147

The following is a summary of the total project costs to date for the Jean ore project:

	Acquisition Costs	Project Costs	Total
Balance as of September 30, 2014	-	-	-
Nine months ended June 30, 2015	11,517	10,504	22,021 (i)
Balance as of June 30, 2015	11,517	10,504	22,021 (i)

(i) The total expenditures reported for the Jean ore project in December 31, 2014 (Q1-2015) was overstated by \$10,000. The amount reported at December 31, 2014 was \$22,610. The actual total for the period was \$12,610. The expenditures stated for the six month period ended March 31, 2015 are reflective of the \$10,000 correction.

During the nine months ended June 30, 2015:

- Exploration costs increased \$10,399 from \$1,049 during the nine months ended June 30, 2014 (“Q3-2014”) to \$11,448 during Q3-2015 primarily due to the NI 43-101 technical report update on the Jean project.
- Management fees decreased \$15,724 from \$53,230 during Q3-2014 to \$37,506 during Q3-2015 primarily due to the former CEO resignation in March 2014. A nominal amount for services rendered is paid to the interim CEO until March 31, 2015 and \$12,500 per month was accrued or paid to the new CEO from April 1 to June 30, 2015.
- Office, administration and miscellaneous costs decreased \$21,387 from \$48,941 during Q3-2014 to \$27,554 during Q3-2015 primarily due to reduction in accounting and administrative services fees paid to Tintina Resources Inc.
- Professional fees increased \$2,057 from \$25,905 during Q3-2014 to \$27,962 during Q3-2015 due to accounting fees incurred in combination with additional legal fees incurred.
- Regulatory and transfer agent fees increased \$7,400 from \$12,954 during Q3-2014 to \$20,354 during Q3-2015 primarily due costs associated with the share consolidation.
- No travel costs were incurred during Q3-2015. During Q3-2014, travel costs of \$28,302 were incurred due to travel expenses related to the identification of new exploration opportunities.

Management Discussion and Analysis
For the nine months ended on June 30, 2015

Key management personnel receive compensation in the form of short-term employee benefits, share-based payments, separation payment, and post-employment benefits. Short-term benefits include management fees paid to the former CEO, former interim CEO and current CEO (see Note 6) of the Company for their services in their roles.

8. Changes in Accounting Policies

The preparation of financial statements in conformity with IFRS requires the Company to establish accounting policies and to make estimates that affect both the amount and timing of the recording of assets, liabilities, revenues and expenses.

A detailed summary of the Company's significant accounting policies and adoption of new or amended accounting standards are included in Note 2 of the Interim Condensed Financial Statements for the nine months ended June 30, 2015.

9. Financial Instruments and Other Instruments

Financial Instruments and Fair Value Measurements

IFRS 13 – *Fair Value Measurement*, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Assets measured at fair value on a recurring basis were presented on the Company's statement of financial position as at June 30, 2015 as follows:

	Fair Value Measurements Using			Total
	Quoted Prices in Active Markets For Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Financial assets				
Cash and cash equivalents	\$ 29,197	\$ –	\$ –	\$ 29,197

Financial Risk

(i) Credit Risk

Credit risk arises from non-performance by counterparties of contractual financial obligations. The Company's maximum credit risk is primarily attributable to its cash. The Company limits its exposure to credit loss for cash by placing such instruments with financial institutions.

As at June 30, 2015, the Company's maximum exposure to credit risk is the carrying value of cash of \$29,197.

Management Discussion and Analysis
For the nine months ended on June 30, 2015

10. Financial Instruments and Other Instruments (continued)

(ii) Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient financial resources to meet liabilities when due. As at June 30, 2015, the Company had negative working capital of \$22,658. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

As at June 30, 2014, the Company has negative working capital to discharge its existing financial obligations. The Company announced a private placement in the amount of \$250,000 August 14, 2015 (see Note 1).

(iii) Interest Rate Risk

In management's opinion, the Company's interest rate risk is minimal as the Company does not have any bank indebtedness or loans payable that bear interest at fixed or variable rates.

(iv) Foreign Currency Risk

The Company is exposed to currency fluctuations in the acquisition of foreign currencies. The Company holds balance in cash in foreign currencies (US dollars) and is therefore exposed to gains or losses on foreign exchange. A significant change in the currency exchange rate between the Canadian dollar relative to the US dollar could have an effect on the Company's results of operations, financial position and/or cash flows. The Company has not hedged its exposure to currency fluctuations.

(v) Commodity Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities may be subject to risks associated with fluctuations in the market price of commodities.

11. Business Operations

The Company was incorporated on August 11, 2009 under the laws of British Columbia. The Company's principal business activities include the acquisition, exploration and development of resource property. The address of the Company's corporate office is Suite 10th Floor, 595 Howe Street, Vancouver, British Columbia, V6C 2T5, Canada.

At June 30, 2015, the Company had not yet determined whether its property contains ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development, and upon future profitable production or proceeds from the disposition of the resource property.

On April 16, 2015, the Company's Board approved a consolidation of the Company's issued and outstanding share capital on a 2 old for 1 new basis. The stock consolidation was completed on May 13, 2015. All share capital and per share amounts in the interim condensed financial statements for the three and nine months ended June 30, 2015 and the Management Discussion and Analysis for the nine months ended June 30, 2015 have been adjusted to give retroactive effect to the share consolidation.

On August 14, 2015 the Board announced it has approved another consolidation of its common shares of the basis of a one new post-consolidation common share for every two pre-consolidation common shares. The Company proposes the consolidation in order to facilitate future financings, and the name is not intended as part of the consolidation. There are presently 38,700,448 common shares issued and outstanding in the capital of the Company. Following the Consolidation, there will be approximately 19,350,224 common shares issued and outstanding. The Board of the Company may, at its discretion, determine when the consolidation will occur. The consolidation is subject to approval of the TSX Venture Exchange. No record date has been announced.

13. Disclosure Controls

Management has designed disclosure controls and procedures, or has caused them to be designed under its supervision to provide reasonable assurance that material information relating to the Company is made known to management, particularly during the period in which the annual filings are being prepared. Management has also designed such internal control over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and preparation of the financial statements for the nine months ended June 30, 2015, in accordance with IFRS.

The Chief Executive Officer and Chief Financial Officer of the Company have evaluated the effectiveness of the Company's disclosure controls and procedures in place as at June 30, 2015. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer of the Company concluded that the design and operations of these controls and procedures were effective.

Additional disclosures pertaining to the Company's management information circulars, material change reports, press releases and other information are available on the SEDAR website at www.sedar.com. The shareholders will be kept informed of any material changes.
